Look closely. Even closer.

This is a book about a button. It is also a book about noticing, wondering, and imagining. Mostly it's a book about *YOU*… the button you will find… and what might happen next.

IN A BUTTON invites readers on a journey to **notice, wonder, imagine, create, delight,** and ***be*** with a single button.

Debut author and illustrator team, Melissa A. Butler and Nicholas Hohman, have created a book not only about a button, but also about the awe and wisdom of wonder itself.

"A picture book to savor."

"An engaging, charming, and soothing introduction to contemplation."

"A beautiful reminder that there is *always* something more to notice."

For "all of us, young and maybe not-so young."

"I feel as though I could pluck a button straight from the page."

"By book's end we find that a button is not just a button in the same way our story is not just a story, but a starting point for fostering curiosity and imagination."
